ECO-REZ 350C

Rosin Modified Resin

IMPORTANT CHARACTERISTICS:

Eco-Rez 350 C is a high viscosity rosin ester with excellent tolerance for low KB oils. While this is primarily an offset ink resin it has potential in many other applications.

APPLICATIONS: BENEFITS:

- Pigment dispersions
  - High viscosity
- Heat resistant ink film for sheetfed and heatset
  - Excellent tolerance for low KB oils
- Coatings and adhesives
- Sealants
