IMPORTANT CHARACTERISTICS:

Alpha-Rez 9250 E is a structured visco-elastic hydrocarbon- / rosin-based hybrid resin.

Alpha-Rez 9250 E exhibits a high viscosity and medium solubility.

Alpha-Rez 9250 E is suited particularly for offset inks that are printed on fast running printing presses.

APPLICATIONS:

- Offset
- Web Offset, Heatset and Coldset
- Sheeted and Gloss Offset
- Waterless Offset
- Letterpress

BENEFITS:

- Excellent for high speed presses
- Very good water balance properties
- Low misting
- Low tack
- High gloss and fast setting

Typical Properties
