

## TERLON™ 7 A

**TERLON™ 7 A** is a linseed-based alkyd with excellent pigment wetting ability and fast, hard-drying properties. The unique polyols used in the structure of **TERLON™ 7 A** allow it to carry and print a larger load of pigments than bodied oils and conventional alkyds. Grinding or flushing with **TERLON™ 7 A** develops more color strength and cleanliness than conventional wetting vehicles, while maintaining excellent flow characteristics. **TERLON™ 7 A** is an outstanding pigment binder on most printable surfaces.
